

NKL-F-xxxS2MT-01U-BK

NIKOLAN Fiber-Optic Cable, SingleMode 9/125µm OS2, Multi Loose Tube Indoor/Outdoor, With corrugated steel tape, Black

NIKOLAN cables, with corrugated steel tape are designed for laying in the cable sewerage, blocks, tunnels, collectors, on bridges and flyovers, in ground of 1-3 groups, between buildings and structures. NKL-F-xxxyyMT-01U-BK cables are designed for outdoor installation and contain twenty four, thirty six, forty eight or seventy two optical fibers comply with the following standard: ITU-T G652.D., ISO/ IEC 11801 OS2/OM2/OM3/OM4. Optical fibers are laid in the loose tube, which is filled with a hydrophobic gel. Optical modules are wrapped around a central strength member. Optical modules covered steel tape. The outer jacket is made of UV Light-stabilized LSZH.

Ordering Table

P/N	Number of fibers	Fiber type	Jacket	Individual package	
				Volume, м3	Weight, kg
