

NMC-500R

Crimping tool

Crimp tools (crimpers) are designed to crimp connectors of the Registered Jack (RJ) type on telephone cables and data cables. The NMC-500R is designed for crimping RJ45 / 8P8C, RJ12 / 6P6C and RJ11 / 6P4C connectors. The tool is equipped with a device for stripping a flat cable and is supplied with a separate device for stripping round cables. This tool is professional, thanks to the "front" crimping.
