

Spiral tape for the organization and protection of cable bunches, black, 10 m

Spiral wrapping tape is designed to organize several cables in a set, which protects the cable from friction and mechanical stress. Allows you to quickly bundle cables inside distribution cable channels, trays and distribution cabinets. The spiral tape NIKOMAX is made of polyethylene. It is intended for the organization of bunches of a cable with a diameter up to 100 mm. It is made in white color and comes in a roll of 10 meters.
