

NMC-TMSxx-WT-100

Base for cable ties, with fastening hole for the screw, white

The base for cable ties is intended for mounting nylon ties on various surfaces. The base is fixed by gluing it on a flat surface with a self-adhesive part, and if there is a mounting hole with screws or self-tapping screws. The base of NIKOMAX is made of ABS plastic, the fastening is done with screws or self-tapping screws. In the NIKOMAX product line there are bases with different diameters of the mounting hole, which are supplied in packs of 100 pieces.
