

NMF-RP12-BLANK-CT-MTP-1U-BK

Fiber Distribution Unit 19", MTP/MPO, modular, 12 Slots for CT cassette module , Sliding type, Black

The NIKOMAX fiber distribution unit NMF-RP12-BLANK-CT-MTP-1U-BK has a standard height of 1U and allows you to install up to 12 distribution CT cassette modules, thereby providing up to 144 LC ports. FDU has 3 pull-out shelves that allow you to install up to 4 optical cassette modules. A hinged lid is located on the front for added protection. Cable entry is carried out on the rear wall.

This FDU is an excellent solution for data centers, provides high density and, due to its design, ease of installation and maintenance.

The cassette design is extremely convenient for installation and allows you to flexibly combine cassette modules with different types of fibers in one design.

Fiber Distribution Unit 19", MTP/MPO, modular, 12 Slots for CT cassette module ,
Sliding type, Black

Detailed characteristics

Characteristic	Value
Housing material	Steel
Type of installed modules	NMF-CT12xxPA-MTPM-LCU-TR
Number of slots	12
Design features	Sliding type
Maximum number of LC ports	Up to 144 LC ports
Color	Black
Installation	19 "Rack or Cabinet
Dimensions	482 x 455 x 44 mm
Temperature range	Storage from -20 to +65. Operation from -20 to +65
Packaging	Individual - Cardboard box
Warranty	1 year
