

The brush entries NMR-BRSH-F-GY, NMR-BRSH-F-BK are intended to protect installed equipment from dust, small objects, mechanical damage of the cable-sheath, which is introduced into the cabinet through the brush entry. The product consists of a plastic body, in which bristles of black polypropylene are fixed. The cable is pulled through the bristles. The brush entry is intended to be installed in special places in the foundation and roof of the cabinet.
