For the organization of information ports in the workplace with the help of boxes, columns and internal sockets, a wide range of inserts of the French standard Mosaic 22.5x45 mm and 45x45 mm are used. The inserts are fixed in the front panels with the help of convenient latches and, if necessary, are easily dismantled. Depending on the model, 1 or 2 Keystone modules of any type are installed in the insert.

The inserts are provided with a curtain to protect the socket from dust when the patch cord is disconnected. Complete with inserts is a set of colored icons. In addition, there are additional areas for marking, closed with removable transparent covers.

NIKOMAX Wall-mounted faceplates are designed to install inserts for modules such as Keystone to organize information ports in the workplace, as well as to install other mechanisms compatible with the French standard Mosaic (45x45 mm).

The front panels **NMC-PL1PM-WT, NMC-PL2PM-WT** and **NMC-PL3PM-WT** hold 1, 2 or 3 inserts of Mosaic format 45x45 mm, respectively. At the base of the panels there are metal subframes for mounting on the mounting boxes and coasters with an interaxial distance between the screws of 60 mm. The outreach of the front frame with respect to the subframe can be adjusted within up to 3 millimeters.

## Package Content
