

NMF-PT1S2CO-LCU-XXX-001-2 NIKOMAX Fiber Optic Patch Cord(Pigtail), Single Mode 9/125, LC / UPC - Empty, LSZH, D = 0.9mm, 1m, 2pcs. pack

Fiber optic patch cords (pigtail) are designed to connect fiber optical cable to active network switches and patch panels for using fusion splicing.

Fiber optic pigtails are manufactured with either multimode or single-mode fibre and terminated only on one side by SC, LC, FC, ST connector type and polished UPC or APC in a diameter of 0.9 mm and tight buffered outer jacket .

Single-mode pigtails have an outer protective jacke in yellow color, and multimode pigments are in orange color.

The manufacturer reserves the right to change the appearance and characteristics of the product, without reducing its consumer properties

NIKOMAX Optical fiber pigtails

Specification

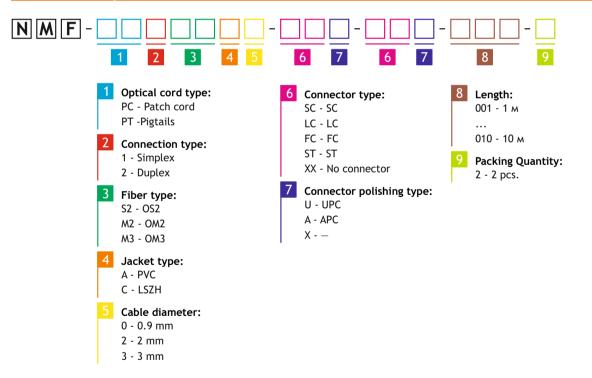

Product Number	NMF-PT1S2C0-LCU-XXX-001-2				
Type of optical fiber	Single Mode 9/125				
Types of conntectors	LC				
Connector polishing type	UPC				
Insertion loss, dB	≤0.30				
Return loss, dB	≥50				
Repeatability *, dB	0.20				
Material of the tip	Ceramics				
Diameter of the tip, mm	1.25				
Outer jacket material	LSZH				
Diameter of outer jacket, mm	0.9				
Compliance	ITU-T G.652.D				
Temperature ranges, °C	Storage from -20 to +65. Operation from -20 to +65				
Packaging	Individual - Plastic bag (2pcs per bag)				
Warranty	1 year				

* Repeatability - spread of insertion loss for a single patch cord
