RJ45/8P8C, Three prongs pin (Universal), 50U,
round type, allow wires to pass-through

- ✓ Wires are able to pass through the connector
- ✓ Ensure that wires are in correct order for termination

Registered Jack (RJ) Plugs are designed as standardized interface for termination of solid and stranded (patch cord) cables in the production of patch cords, for connecting cameras and some other networking equipment.

To increase the maximum number of reconnections, general life and the protection of copper contacts connectors from oxidation, they are additionally coated with gold plating.

NMC-RJ88RZ50xx1-PT-100 are designed to allow wires pass through the connector ensuring that all wires are in right order for termination.

NMC-RJ88RZ50UD1-PT-100
Cat.5e Unshielded

Wires can pass-through
the connector

NMC-RJ88RZ50SD1-PT-100
Cat.5e Shielded

Package Content

Connectors - 100 pcs/pack

Accessories

Crimping Tool: NMC-5684PT

Specification

Product Number	NMC-RJ88RZ50UD1-PT-100	NMC-RJ88RZ50SD1-PT-100	NMC-RJ88RZ50UE1-PT-100	NMC-RJ88RZ50SE1-PT-100
Type of connectors	RJ45/8P8C			
Category	5e		6	
Bandwidth, MHz	100		250	
Type	Unshielded	Shielded	Unshielded	Shielded
Material of connector contact	Phosphor bronze			
Material of contact plating	Gold, 50 micro-inches			
Type of knives	Universal			
Diameter of conductors, AWG	24-26 (0.51-0.40 mm)		23-26 AWG (0.57-0.40 mm)	
Housing material	Transparent polycarbonate, meets UL 94-V2			
Temperature ranges	Storage from -40 to +70°C. Installation is from -10 to +50°C. Operation from -30 to +80°C			
Warranty	1 year			
Packaging	Polyethylene bag (100 pcs)			

Order Table
